

HN953A Automatic Bursting Strength Tester

Standards

ASTM-D2210、TAPPI-T403、JIS-P8112、L1018、L1004

Applications

This machine is suitable for corrugated packaging products that the electronics, electrical appliances, wires, hardware, bicycles, handbags, food, footwear, furniture, etc. In other words, it is also suitable for testing anti-rupture strength of synthetic leather, cloth.

Specifications

Sense method: pressure transducer

Display: LCD display

Capacity: 0 ~ 100kg/cm² (0.1kg / cm²)

0 ~ 16kg/cm² (0.1kg / cm²)

Hydraulic speed: 170 ± 10ml/min

Hydraulic pressure: 0~25kg/cm²

Diameter of sample holder: Upper holder: Φ31.5mm and Φ30.48mm

Lower holder: Φ31.5mm and Φ31.75mm

Dimension: 430 × 530 × 520mm

Weight: about 65kg

Power: AC220V, 50HZ, 300W
